Author Index to Volume 68

Atwood, R. K., Neal A. A., and Oldham, B.: Developing Classroom Evaluation Materials for SCIS, 163

Ault, C. R., Novak, J. D., and Gowin, D. B.: Constructing Vee Maps of Clinical Interviews on Molecule Concepts, 441

Berkheimer, G. D. and Lott, G. W.: Science Educators' and Graduate Students Perceptions of Science Education Objectives in the 1980s, 105

Brumby, M. N.: Misconceptions about the Concept of Natural Selection by Medical Biology Students, 493

Chen, D. and Novik, R.: Scientific and Technological Education in an Information Society, 421

Chisman, D. G.: Science Education and National Development, 563

Dobey, D. C. and Schafer, L. E.: The Effects of Knowledge on Elementary Science Inquiry Teaching, 39

Ehindero, O. J.: The Acquisition and Transfer of Transitive Inference by Some Nigerian Children Aged 4 to 7 Years, 427

Erickson, G. L. and Erickson, L. J.: Females and Science Achievement: Evidence, Explanations, and Implications, 63

Garnett, P. J., and Tobin, K.: Reasoning Patterns of Preservice Elementary and Middle School Science Teachers, 621

Harty, H., Anderson, H. O., and Enochs, L. G.: Science Teaching Attitudes and Class Control Ideloogies of Preservices Elementary Teachers with and without Early Field Experiences, 53

Hertz-Lazarowitz, R., Baird, H. J., Webb, C. D., and Lazarowitz, R.: Student-Student Interactions in Science Classrooms: A Naturalisitc Study, 603

Hirsch, C. R.: A Profile of Michigan Teachers of High School Biology, Chemistry, and Physics: 1980–1983, 579

Ingle, R. B.: Nuffield Chemistry in Britain 1961–1982. Part I. Development and Reception of the O-Level Publications by the Teaching Profession, 523

——: Nuffield Chemistry in Britain 1961–1982. Part II. Evaluation and Revision of O-Level Publications, 541

Jolly, P. E. and Strawitz, B. M.: Teacher–Student Cognitive Style and Achievement in Biology, 487

Klopfer, L. E.: Editorial: New Friends amd New Forms for Science Education, 1

Koballa, Jr., T. R.: A Validation Process for Designing One-Sided and Two-Sided Communications to Use in Persuading Teachers of the Need to Teach Energy Conservation to Children, 91

Miller, R. M.: Science Teaching for the Children of the Future, 403

Morrisey, J. T. and Barrow, L.: A Review of Energy Education: 1975 to NEED 1981, 365

Nichter, R.: A Study of UNESCO Science Education Improvement Programs in Selected Anglophone Countries of Africa: Project Problems, 381

Norris, S. P.: Defining Observational Competence, 129

Ogunniyi, M. B.: An Investigation of the Nature of Verbal Behaviors in Science Lessons, 595

Olstad, R. G. and Beal, J. L.: The Science and Mathematics Teacher Shortage: A Study of Recent Graduates, 397

Perrine, W. G.: Teacher and Supervisory Perceptions of Elementary Science Supervision, 3

Power, C.: Tinker, Tailor, Soldier, Spy—Implications of Science Education Research for Teachers, 179

Rakow, S. J., Welch, W. W., and Hueftle, S. J.: Student Achievement in Science: A Comparison of National Assessment Results, 571

Skroog, G.: The Coverage of Evolution in High Shcool Biology Textbooks Published in the 1980s, 117

Sneider, C., Kurlich, K. Pulos, S., and Friedman, A.: Learning to Control Variables with Model Rockets: A Neo-Piagetian Study of Learning in Field Settings, 464
Spector, B. S.: Incentives to Increase the Number of Qualified Science Teachers in Precollege Institutions, 153
Staver, J. R. and Halsted, D. A.: The Effect of Reasoning on Student Performance in Different Sections of a Posttest, 169

van den Berg, E. and Lunetta, V. N.: Science Teacher Diploma Programs in Indonesia, 195
Volk, T. L.: Project Synthesis and Environmental Education, 23

Yager, R. E.: Defining the Discipline of Science Education, 35
——and Penick, J. E.: What Students Say About Science Teaching and Science Teachers, 143

Zebrowski, Jr., E.: Printing Technology and the Emergence of College Physics Textbooks, 11
Zeidler, D. L.: Moral Issues and Social Policy in Science Education: Closing the Literacy Gap, 411
Zeitler, W. R.: Science Backgrounds, Conceptions of Purposes, and Concerns of Preservice Teachers about Teaching Children Science, 504
Zubrowski, B.: Of Cabbages, Science Curriculums, and Children's Learning, 589
